

Biol 494 ~ Biology Research (1-4)

Biol 494 is for individual or collaborative research, including the design and execution of a research project under the supervision and guidance of a biology professor.

Instructions

- Please complete this form after you and a Biology faculty member have discussed the research activities in which you will be involved.
- Have the Research Professor sign this form, and return the completed form into the Biology Office, BI 315. An override for BIOL 494 will be entered and you will be given the CRN to use for registration.
- Enjoy your work. ☺
